## About Us

Tamarix Capital is an investment firm dedicated to using flexible financing solutions to support exceptional management teams in lower-middle-market companies. We seek to partner with family-owned or closely held businesses to unlock opportunities for value creation and growth.

Tamarix uses a flexible, opportunistic approach to investing, customizing debt and equity investments that best meet the needs of owners and managers. Our ability to uniquely tailor each investment enables business owners and management teams to achieve targeted growth, liquidity, and ownership transition goals.

The Tamarix investment professionals previously managed a small Business Investment Company ("SBIC") fund called Tamarix Capital Partners, L.P. The membership interests of this fund were sold to OFS Capital Corporation (NASDAQ: OFS) in December 2013, and the Tamarix investment professionals joined the OFS Management Team and continue to manage the SBIC Fund.

For additional information, please see the following [press release](#) and visit the [OFS website](#).
