Value Creation

We believe in building partnerships, not simply being a capital provider. We pride ourselves on adding value in each of our investments, regardless of the size of our equity ownership stake.

While Tamarix seeks to identify and partner with outstanding management teams and places a great deal of trust in those management teams, lower-middle-market businesses are often lean and their management teams lack depth. Over the course of their careers, our investment professionals have developed extensive experience and expertise investing and working in lower-middle-market businesses. For each investment, we will provide the support needed to reach the company's financial and strategic goals.

We add value to companies in many ways:

- Strategic Planning
- Marketing and Sales Improvements
- Strengthening Management
- Outsourcing and Supply Chain Efficiencies
- Corporate Controls
- International Expansion and Licensing
- Add-on Acquisitions
